

OCTOBER 2013

Hydraulic Tester

pressure, temp & more

Hand-held tester measures pressure, temperature, flow rate, frequency, and speed in mobile and industrial hydraulic systems. Measured values can be read quickly from the multi-line, backlit LCD graphic display, even in low light conditions. Oil-resistant rub-

withstands impacts, vibration, dust. The PPC-04-plus tester is available with analog sensor inputs or a CAN interface for up to three digital sensors.

Adjustable Stand

has holes for mounting equipment

Totally-enclosed telescoping stand has a load capacity up to 1,000 lb. The stand column is made from clear anodized aluminum with a steel weldment base and comes with holes for easily mounting equipment. An adjusting screw with a hand crank enables height adjustments

from 31.5 to 47.2 in. An optional motorized version is available, along with an encoder hand wheel for setting heights to repeated distances.
