Tubing Cutter makes accurate cuts at 45° angles.

Press Release Summary:

December 8, 2014 - Offering accuracy of ± 0.1 in. at 3.9 in. lengths, Tubing Cutter can cut heavy and thin plastic or rubber non-wire reinforced tubing up to 1 in. diameter. Tubing is indexed by servo motor with dual drive tractor belt system. Replaceable knife cartridges can be set up for different angled cuts as well as standard perpendicular cuts. Operated via touchscreen, cutter is equipped with pneumatically operated knife assembly that requires 40–60 psi compressed air and 110 or 220 Vac.
